April-May 2021

India is currently facing a devastating second wave of the coronavirus pandemic and while the below highlights the efforts of **RSSB** it has to be said that this would only have been possible with the assistance and efforts from every section of society. The central government, local authorities, local business, healthcare groups have all come together to coordinate a response and in most cases risk their own wellbeing to be of service to those in need. The coming days might be more difficult and darker but their service gives spark to the hope that shall see us through.
